PART 1 – Get to know the receiving country

**Brief facts about Slovak Republic**

Historical events in Slovakia were determined by its geographical location - geographically, the country is situated in the very heart of Europe. The territory of Slovakia was a place where cultural influences from the East and the West mixed. This was reflected in the ethnical structure of population. Central Europe was penetrated by nomadic Kimers, Skyts, Daks, Huns, Avars and Old Hungarians from the east and south-east. From the west, Celts, Germans and Romans made a major impact on the population. The Slavs made their way to Slovakia in the 5th - 7th century A.D. This period also delimits the existence of the first Slavic state, the Great-Moravian Empire - the territory of Slovakia being its part. The Great-Moravian Empire ceased to exist in 906. The territory of Slovakia was invaded by Old Hungarians. In 1467, Matej Corvin established “Academia Istropolitana”, the first Bratislava University. After an enormous Turkish offensive in 1526, the Hungarian army was defeated. This meant the end of the Czech-Hungarian union and Hungary together with Slovakia became part of the mighty Habsburg Empire for more than four centuries.

The second half of the eighteenth century was influenced by the Age of Reason. Towards the end of the eighteenth century, the process of formation of the modern Slovak nation started. The result of this process was the codification of the Slovak language in 1843. World War I caused the split of the Austro-Hungarian Empire and the establishment of a new state, the Czecho-Slovak Republic. The Munich Dictate in 1938 resulted in the split of the Czecho-Slovak Republic. After World War II, the Czecho-Slovak Republic was re-established. In 1948, after the communist coup, a totalitarian communist regime was imposed on the country. The situation changed in 1989 thanks to the “Velvet Revolution”. On January 1, 1993 the Slovak Republic was declared an independent state established by splitting the former Czecho-Slovak Republic into two independent sovereign states - the Czech Republic and the Slovak Republic. The Slovak Republic was established in a democratic and constitutional manner. In January 1993 the Slovak Republic joined the United Nations as a full-fledged member. In October 1993 the European Parliament ratified the Association Agreement between the Slovak Republic and the European Union and in May 2004 Slovakia became the member of EU.

The Slovak Republic is a country located in Central Europe. It borders with the Czech Republic, Poland, Ukraine, Hungary and Austria. Its area is 49,036 km². It is a hilly country, especially in the north and in the centre. The highest mountain range is the High Tatras (the Gerlach peak is 2,655 metres above the sea level). The Danube and the East-Slovakian lowlands are typical for intensive agriculture. The most important river is the Danube. It represents a significant waterway connecting Slovakia with ports in the Black Sea and, via the Rhine-Mohan-Danube canal, with the seaports in Western Europe. The population is about 5.4 million. The density of population is 109 people/km². 85.8% of the population are Slovak nationality, 9.7% are Hungarian, the rest are Czech, Ruthenian, Ukraine, German and Roma minorities. Slovakia is a parliamentary democracy with a single chamber parliament of 150 members. The head of the state is the President. The official state language is Slovak. Bratislava (431,061 (to 2009) inhabitants) is the capital of Slovakia. It is also the seat of the President, the Parliament and the Government. Other big cities are: Košice, Prešov, Nitra, Žilina, Banská Bystrica, Trnava.
**Nitra town & How to get there**

From a historical perspective, Nitra is considered to be the mother of all Slovak towns, a centre of education and culture. Nitra is one of the oldest settlements in Slovakia. From the 9th century it was the seat of the Princes of Nitra and the sovereigns of the Great-Moravian Duchy and later successors to the Hungarian throne. In 830, the first historically documented Catholic church in Slovakia was built and in 880 a bishopric was founded in Nitra. In 863 St. Cyril and St. Methodius, the Thessalonian brothers, came as missionaries and laid the foundations of Slavic literacy, education and culture. In the 11th century, Nitra gained new significance, being a seat of the Bishop of Nitra and becoming an administrative centre of the Hungarian comitatus (county district).

The Nitra of today is a significant centre of education, science, research and culture. It is a real academic town with two universities: Constantine the Philosopher University (UKF) and Slovak Agricultural University (SPU), with more than 25,000 students. Nitra is situated in the north – eastern part of the Podunajská lowland, at the foot of the Tribeč mountain range. The Zobor hill (588 m) towers over the town and together with six other hills provides a unique panorama overlooking the town. The natural scenery is complemented by the river Nitra, which runs in a wide bow around the castle hill. Nitra is about 100 km far from the capital of Slovakia - Bratislava. It is a beautiful town with historical core (churches, museums, monuments etc.) surrounded by wonderful nature sceneries.

In order to reach Slovak Republic, you can take a plane directly to the M. R. Štefánik Airport in Bratislava, the capital of Slovakia (www.letiskobratislava.sk). From the airport take a bus to the Main Bus Station in Bratislava and then continue by a coach to Nitra (about 90 km). Many students take the advantage of the Vienna Airport (www.viennaairport.com) which is located only 45 km from Bratislava. There is direct bus connection from Vienna airport to the Main Bus Station in the downtown of Bratislava.

The capital of Slovakia Bratislava is connected with the railroad network of all neighbouring countries (Austria, Hungary, Poland, Czech Republic, Ukraine). After the arrival to the Main Train Station in Bratislava, it is recommended to take a bus from the Main Bus Station in Bratislava, because of its direct connection to Nitra. Information about the train connections can be found at: www.busy.sk, www.slovakrail.sk. EUROLINE buses arrive at the Main Bus Station (Mlynské Nivy) in Bratislava. Some of the international bus connections continue to other towns in the Slovak Republic including Nitra. You can find more information at: www.eurolines.sk, www.busy.sk

Public transport is the most typical way of transportation in Nitra. Bus schedules are found at every bus stop, tickets are sold and paid in cash in Taxis are plentiful, their terminals are located throughout the town.
Welcome to Constantine the Philosopher University in Nitra

Over its 60-year-long existence, Constantine the Philosopher University in Nitra has undergone a number of important changes. In 1959 a Pedagogical Institute was founded in Nitra. - they will carry out a part of their studies in Slovakia within an EU programme (e.g. Erasmus+), Slovak governmental programme (e.g. National Scholarship Programme of the Slovak Republic), a multilateral programme supporting mobility (e.g. CEEPUS) or within an agreement between higher education institutions, and

The higher education institution is obliged to report the Foreign Police Department in writing any change influencing the mobility in Slovakia, within three working days of learning about them.
Health and insurance

The healthcare system in Slovakia falls under the competence of the Ministry of Health of the Slovak Republic. In Slovakia, there are state and private health care providers. An initial medical examination is provided by state or private general practitioners. Everybody can choose a general practitioner who usually provides basic health care and can refer a patient to an appropriate specialist for further medical examination. If a foreign national has health insurance, the health care provided is paid for by the insurance company. Depending on the type of service provided, the health insurance company will pay for this service either in full or partially. If the health insurance company pays for the service only partially, the rest is paid by the foreigner directly to the health care provider. If a foreign national does not have health insurance, he/she must pay the full amount for health care provided.

Health Insurance and Coverage European Health Insurance Card EU/EEA/Swiss nationals are entitled to health care under the same conditions as the nationals of the Slovak Republic. For entitlement to medical treatment on the basis of health insurance in another Member State (EU, EEA, Switzerland), an EU/EEA/Swiss national must present a European Health Insurance Card (EHIC) to the health care provider (EHIC will be issued at your request by a health insurance company to which you pay health insurance premiums). In such case, the treatment of an EU/EEA/Swiss national will be covered by a Slovak health insurance company to the same amount as a Slovak national, provided the relevant physician has concluded a contract with at least one health insurance company.

International Students (Including PhD Students) International student coming to Slovakia to study within a programme arising from an international treaty (and that treaty is binding for the Slovak Republic) is subject to statutory health insurance, the Slovak Republic being the payer of such insurance. The student shall submit the necessary documents certifying his/her study at a higher education institution in the Slovak Republic, its international status – proved by the Ministry of Education, Science, Research and Sport of the Slovak Republic. Other international students must be insured privately. Additional Individual Health Insurance Foreigners who are not duly insured can take out contractual health insurance on the territory of the Slovak Republic.

Obtaining Health Care
Under the Slovak Constitution every individual – a citizen or a foreigner – staying in Slovakia has a right to be provided with the necessary health care. Everyone has the right to choose his/her own health care provider.
